Karmanos Cancer Center

Wayne Health cancer care providers are part of Karmanos Cancer Institute, one of two designated comprehensive cancer centers in Michigan, offering treatments for leukemia, lymphoma, multiple myeloma, medical and radiation therapies and surgeries for many cancers (breast, liver, lung, pancreas and more).

Kresge Eye Institute

Wayne Health's ophthalmology team has years of experience treating and managing a full spectrum of eye conditions, from simple to complex. Our ophthalmologists practice at the internationally renowned Kresge Eye Institute (KEI) with locations throughout metro Detroit. We treat more than 100,000 patients annually and perform nearly 5,000 surgical procedures. Patients travel from all over the Midwest to access our highly specialized eye care.

Wayne Health Mobile Unit

The Wayne Health Mobile Unit represents the future of healthcare, providing 'care your way, where you live and work,' with the long-term goal of improving population health outcomes. Our mobile units deliver an ever-expanding menu of health care and connection to social services directly to your neighborhood or place of employment. We are here to help you and we will be there every step of the way.

Wayne Health Infusion Clinic

The Wayne Health Infusion Clinic enhances our ability to deliver expedited state-of-the-art treatment for many conditions, such as systemic lupus, Crohn's disease, connective tissue diseases, multiple sclerosis and other neuropathies that can improve through treatment with biological agents.
